

Extra thin* and better adhesion

Nobinobi Salonsip[®] FIT[®] Onkan

* Compared to our conventional products

<Warm type> Analgesic antiinflammatory gel patch

Product features

- A comfortable, analgesic, anti-inflammatory, warming gel patch with <Less scent>.
- A thin and light patch that is comfortable to wear.
- The roundedcorner makes them resistant to removal even when clothes brush against them.
- All direction stretchable and fits perfectly well to joint areas.
- Easy to remove the film and apply.
- Has a “zipper” to prevent evaporation.

⚠ [Precautions]

⊗ Do nots [Failure to follow the instructions may result in worsening symptoms or cause side effects.]

Do not use the product onto the following areas:

- (1) Areas around the eyes and mucous membranes
- (2) Eczema, rash, or wounded areas

Consult with a doctor

1. Consult with a doctor, pharmacist, or registered drug seller if you:

Have ever experienced allergic symptoms after taking a drug.

2. Stop use and consult with a doctor, pharmacist, or registered drug seller showing this box if you experience any of the following symptoms after using the product because it may be a side effect:

Affected area	Symptoms
Skin	Eruption/redness, itching, rash, pain, pigmentation

3. If the symptoms persist after five or six days of use, stop using the product and consult with a doctor, pharmacist, or registered drug seller showing this box.

[Indications] Lower back pain, stiff neck, joint pain, muscle pain, muscle fatigue, bruise, sprain, bone fracture pain, frostbite

[Dosage and Usage] Apply onto the affected area one or two times a day.

<Precautions Related to Dosage and Usage>

- (1) Children should use the product only under adult supervision.
- (2) After applying the product do not warm the applied area using an electric heater or blanket.
- (3) Remove the patch at least one hour before taking a bath because you may feel strong irritation.
Wait for about 30 minutes before applying the product after bath.
- (4) Clean the affected area before use.
- (5) Do not apply the product onto a same area repeatedly if you have sensitive skin.
- (6) If the product is used for bruise or sprain, wait until swelling subsides before use.
