

Soothing stimulation by Salonpas relieves the ache

# サロンパス ローション

## Salonpas® Lotion

### Product features/characteristics

- Active ingredient, glycol salicylate exerts excellent effects in relieving stiff neck and muscle pain.
- Soothing, gentle stimulation by Salonpas relieves the ache (prescription to provide a cooling sensation).
- “Rakunuri” bottle for easy application to the hard to reach areas of the body.
- Subtly fragrant lotion you can comfortably use while going out.

### [Precautions]

 **Do not use:** [Failure to follow directions may result in worsening of current symptoms or cause side effects.]

Do not use this product on the following areas:

- (1) Around the eyes and mucous membranes.
- (2) Eczema, eruptions, sores, wounds, and purulent areas.

### **Ask a doctor:**

1. Ask a doctor, pharmacist or registered distributor before use, if you have a history of allergic symptoms due to drugs.
2. If the following symptoms appear after use, they may be side effects. Stop using this product immediately, and ask a doctor, pharmacist, or registered distributor with this box.

Related area	Symptoms
Skin	Rash/redness, itching, swelling, pain

3. If the symptoms do not improve after 5 to 6 days of use, stop using the product and ask a doctor, pharmacist, or registered distributor with this box.

**[Indications]** Stiff neck, low back pain, joint pain, muscle fatigue, muscle pain, bruises, sprains, bone fracture pain, frostbite

**[Dosage and usage]** Apply a proper amount to the affected area several times a day.

<Precautions related to dosage and usage>

- (1) Do not use otherwise than as specified in the dosage and usage.
- (2) Children should use this product only under adult supervision.
- (3) Avoid contact with the eyes. If eye contact occurs, rinse immediately with water or lukewarm water.  
Consult an ophthalmologist if the symptoms are severe.
- (4) Do not touch the mucous membranes such as eyes with hands after handling this product.
- (5) For external use only.
- (6) Do not use before or after a bath or shower.
- (7) This product may cause intense stimulation if you rub your skin during a bath or shower or when you sweat in the summer.  
Stop using if you feel intense pain, irritation, or itching. Wash the affected area lightly and gently with foamed soap and water for several times, without rubbing, then cool it down with cold water or slightly damp towel.  
Ask a doctor with this box if symptoms persist.
- (8) Do not warm the affected area to which this product is applied with a heating pad or electric blanket.
- (9) Do not apply to the same area continuously if you have sensitive skin.
- (10) Do not cover the affected area to which this product is applied with unbreathable materials.
- (11) Soak the sponge thoroughly with the drug solution before application to the affected area. Sponge may be damaged if the drug solution is not spread on the sponge surface.
